SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

inReach Activation, Sequoia Kings National Park, Fresno County

On 05/21/18 at 1459 hours, IERCC notified the California State Warning Center (CSWC) of In-Reach activation at a location in Sequoia Kings National Park.

- Contact made with National Park Service (NPS) Rangers.
 - NPS Rangers are handling the mission and have no unmet needs.

Cal OES SOUTHERN REGION

Train Derailment, Carson, Los Angeles County, SPILL: 18-3296

On 05/21/18 at 1959 hours, CSWC received report from Union Pacific Railroad (UPRR) that two empty boxcars derailed in the upright position due to unknown cause.

- There were no hazardous materials released and no injuries reported.
- CSWC personnel performed notifications per SOP.

Virulent Newcastle Disease in Chickens, Downtown Los Angeles, Los Angeles County

On 05/18/18 at 1105 hours, CSWC received a report from the California Department of Food and Agriculture (CDFA) that CDFA had detected virulent Newcastle disease in 10 chickens in Downtown Los Angeles, Los Angeles County.

Per CDFA on 05/21/18 at 1640 hours:

- No new infected chickens have been found.
- CDFA is not convinced that there are no other locations with disease.
- CDFA is making good use of their outreach and poultry health connections to the urban poultry community.
- CDFA does not have a regional quarantine in place because they have yet to find an actively infected premise.
- CDFA is conducting area surveillance around the reported home location of the infected flock, which is under quarantine, as well as in other areas of concern.
- CDFA is actively looking for disease and will continue to provide regular updates.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES SOUTHERN REGION (Continued)

Background:

- The detection has been confirmed by the United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS).
- This is the first case of virulent Newcastle disease, previously referred to as exotic Newcastle disease, in the US since 2003.
- There is no commercial poultry production and no farms in the immediate vicinity.
- Virulent Newcastle disease is not a food safety concern.
- No human cases of Newcastle disease have ever occurred from eating poultry products.
- Infection is easily prevented by using standard personal protective equipment.
- CDFA is working with federal and local partners as well as poultry owners to respond to the finding.
- State Officials quarantined potentially exposed birds and have tested for the disease.
- Cal OES is monitoring and remains on standby to assist as warranted.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

- Nothing significant to report.

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Major Road Closures		
Northern California	Central California	Southern California
No Lifeline Route Closures	No Lifeline Route Closures	Lifeline Route Closures

Lifeline Routes

Mono County:

- US 395 northbound traffic is closed at the CA/NV Stateline due to a mudslide. There is a detour in place for motorists. Estimated time of reopening is unknown.

Non-Lifeline Routes:

- There are no non-lifeline closures.

Wildfire Closures:

- There are no wildfire closures.

Emergency Center Activations:

- There are no Emergency Center Activations.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

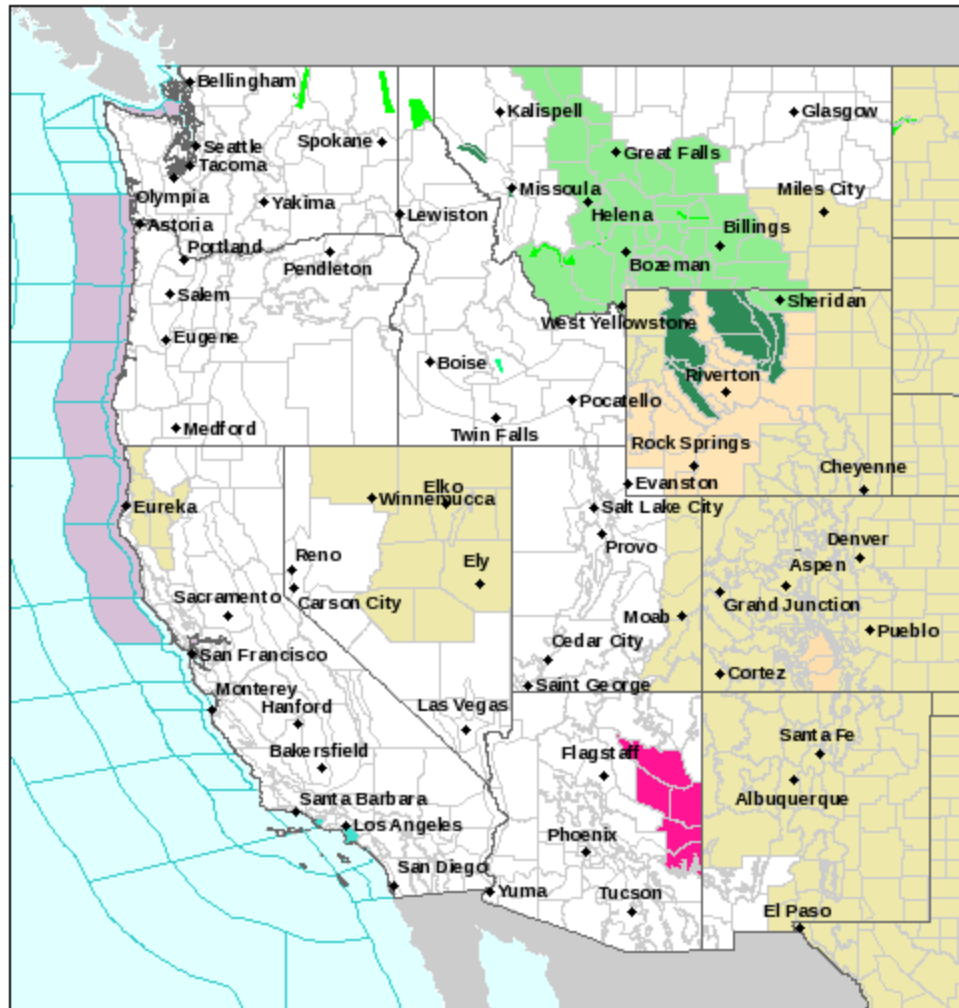

No changes to the expected unsettled weather through the weekend. Daily afternoon and evening rounds of showers and thunderstorms will continue. The mountains will be favored with this activity and wetting rain is likely with the stronger bands of showers and storms. The northern and eastern highlands will tend to be favored more. Temperatures will be near normal, overall, during this period. Humidity values are expected to be at moderate levels for the time of year although could trend drier due to a more pronounced northerly flow on Sunday. S to SW winds will begin to increase today but become more pronounced across the region Wednesday and Thursday due to the next approach of a cut off low. Expect general peak gusts between 20 to 30 mph favoring the Delta Region and Modoc county. Acute or short term stronger gusts would be associated with thunderstorms. As mentioned above, a gustier northerly breeze would be possible on Sunday as the low departs to the east. Some sort of drier and warmer ridging is expected the earlier half of next week. Weather models have had a harder time during the 7 to 10 day period as of late so confidence in this pattern trend change is still a bit low.

SOUTHERN CALIFORNIA

The low pressure area which brought precipitation to the region yesterday has moved on, but a trough over the Pacific Northwest will calve another weak cutoff low which will reinforce the cool weather already in place. The low produced showers and thunderstorms yesterday and some areas of the Sierras received over a half inch of precipitation while higher elevations of Southern California recorded around a quarter inch of rainfall. However, all precipitation should be confined to the Sierras the next two days with only spotty light amounts of additional precipitation expected. High temperatures today will remain 10-12 degrees below normal along the coast and intermediate valleys through Friday due to deep marine layer coverage. A bit of warming may occur late in the week, but overall, expect highs to be in the 60s along the coast, 70s in the intermediate valleys to the mid 80s in the San Joaquin Valley. The low desert will continue to see temperatures in the 90s. Only limited clearing is expected west of the mountains through the end of the workweek. Gusty west winds of 20-30 mph will be possible Wednesday and Thursday during the afternoon in much of the desert. Gusty north winds may be possible late in the week during the overnight hours in Santa Barbara County and the I-5 Corridor. Long range models indicate warmer weather may finally arrive next Sunday and Monday, bringing an end to the nearly 20 day streak of below normal temperatures. No offshore winds are expected through the period.

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2018-LAW-46811, 05/19/18, 1217 hours:** Mendocino County Sheriff's Office advised that on Friday, 05/18/18 at 1300 hours, a 76 year old female at risk with early stage Alzheimer's walked away from her residence in the town of Piercy. Mendocino Sheriff requested twenty (20) Type I and Type II searchers, two (2) trailing K-9's and two (2) area K-9's for 0900 hours start time on Sunday, 05/20/18, at the Piercy Community Center off of Hwy. 271 in Piercy. **Update 05/20/18:** Mendocino County Sheriff requested the following resources for Monday, 05/21/18 - 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; California National Guard (CNG) support for 50 Nano shout devices with technician support; 5 area search dogs. Cal OES LEB is coordinating the request. **Update:** Mendocino County Sheriff requested the following resources for Tuesday 05/22/18 and Wednesday 05/23/18 for 50 Type I and II searchers; four wheel drive trucks or vans with a driver to transport search teams; 5 area 2 trailing search dogs. Cal OES LEB is coordinating the request. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2018-LAW-46853, 05/21/18, 1246 hours:** AFRCC notified CSWC of a PLB activation, Marin County/Estero Trailhead, medical emergency, National Park Service responded and handling to conclusion. Marin County Sheriff notified by LDO. **Mission Closed.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. Original deployment dates: 5/13/18 - 5/19/18. The State of Hawaii has requested an extension of this resource; the new return date is 5/24/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
